Winter 2012 After-School Programs

Furious Flying Machines (Grades K-5) TUESDAYS FEE: \$99

Attention young Aviators -Fly through the winter! Learn to build and pilot your very own aircrafts! In this novel and exciting program, students build their very own airplanes and delight as they watch them soar overhead. With all these amazing models to build and take home, this course is sure to keep students flying high. We'll kick things off with the *DRAGONFLY*. Light weight and versatile, this model features a rechargeable electric motor and flight times that last over 2 minutes! Then we'll launch the *AERO QUEST* five stories high using handmade sling shots and watch as they spiral down. After that we'll embark on our first all-wooden model, the *ANGEL VI*. Sporting removable wings and components, this futuristic plane is specially designed for acrobatic flight maneuvers including loops and boomerang returns. From there we'll tackle another motorized plane. The *MAGNUM*, our most resilient all-weather model, includes a built-in flight timer and can glide the length of a football field. And to finish with a bang we'll build the all-wooden *FUGA*. Excellent at handling sharp maneuvers, this plane borrows structural design features from real jet fighters and takes off using a high speed launcher. So bring your imagination and sense of adventure as you learn to build and pilot your very own Furious Flying Machines! *Program may be divided into 2 classes for younger vs. older grade levels depending on enrollment.*

Crazy Chemistry (Grades K-2, 3-5) WEDNESDAYS FEE: \$105

Eight sessions are as follows. Science Content is adjusted for younger vs. older grade-levels.

Lab Works: Join our Mad Scientist in the lab as we experiment, concoct, and create! Discover the inner workings of a lab as you create your very own right in your classroom! Learn to manipulate laboratory equipment at your personal lab bench, and take home your very own Graduated Gear to continue your research!

Junior Reactors: Strap in for this radically reactive class! Atoms, Molecules, and Matter oh my! Learn to recognize chemical reactions and mix up a few reactive ingredients for some sensational results! Bubbling potions, fizzing fountains, and spewing spectacles are all waiting for you! We will even create a tiny world of atoms with your very own set of Atomic Coins to take home!

pH Phactor: In this pHantastic class, we will explore the amazing world of acids and bases! Using our lab equipment we will slide down the colorful pH scale and dip into exciting experiments! Explore the pH extremes with your Reaction Tube in what is sure-to-be an awesomely acidic experience! Discover whether liquids found in your home are acids or bases using your personal pH Paper!

Slime Time: Join our Mad Science Olympic Team in the Slime Time Olympics!! Discover all the properties of polymers and cool things that stretch and use that knowledge to create and concoct an awesome batch of Mad Science Slime! We will stretch it out, pull it up, and fling it around as we put our slime through the ultimate test of stretch-ability; The Slime Time Olympics!

Chem in a Flash: Faster than a speeding bullet! More momentum than a speeding locomotive! Check out Chemistry in a Flash! Mix and make new substances and chemicals to learn amazing reactions and create awesome experiments! Continue the Chemistry at home with you very own Action Flask as you build your lab!

The Glow Show: Come on down to the Glow Show to light up your imagination! Using chemical reactions we will brighten things up to show you the awesome properties of light! Discover secret substances and hidden messages with the incredible Black Light writer! Create secret messages and spy letters that only you and your friends can read!

Super Sticky Stuff: Stick it, stretch it, and peel it! We will get sticky with super sticky stuff! Let's explore how and why all of those sticky things are sticky! We will use our smarts and skills to experiment and create incredible gravity defying matter that can help us climb walls and hang out on the ceiling! With this awesome class, we will be getting down and sticky with science!

Dry Ice Capades: Brrrrrrrr, its cold in here! How Cold? -109 degrees! Join our Mad Scientist for the Mad Science Ice Capades! Slide, sizzle, and sing all with dry ice! Explore the 3 states of matter, turn water to ice in 30 seconds, play with the bubble canons, and make coins shiver and spoons sing! In this awesome class we will even make our very own soda pop and create the same awesome fog illusions used in scary movies! Join us for Mad Science this season or get left out in the cold!

Winter 2012 After-School Programs

Creative Cooks (Grades K-5)

WEDNESDAYS

FEE: \$120

Food Crafters! Join Chef Angie for Wednesdays during the cold winter months to explore the kitchen in a whole new way. This class is for serious chefs to develop their own recipes using seasonal and local products. Each class will consist of one “secret ingredient” and a host of items that can mix with it... under instruction and with a little trial and error... we might just develop a brand new favorite “kid friendly” food! So if you’re creative... get your aprons on!!

Golf (Grades K-5)

WEDNESDAYS

FEE: \$140

Multi-child discount (10% off family total) \$126

Total Golf Adventures (TGA) is bringing the golf course to your school! Students learn all aspects of golf, from swing fundamentals to the game’s rules, etiquette and life values, while advancing through a 5 Level Program. TGA maintains a safe, nurturing environment with a maximum 8:1 ratio of students per professional golf instructor. TGA provides all equipment so students need to bring nothing but a smile to each class. Tee it up with TGA and see how much fun playing golf can be!

Mosaic Glassworks (Grades 2-5)

WEDNESDAYS

FEE: \$150

10% Sibling Discount \$135

This class will include instruction in connection with the hands-on student creation of mosaic projects that explore various mosaic mediums and techniques. Students will create a glass on wood “critter” with focus on tile placement, a “sun-catcher” with focus on design, and a “Pique assitte” (meaning stolen from a plate) creating a treasure from trash using broken pottery. All materials will be provided. *Creating fun one piece at a time!*

Kidz Art (Grades K-5)

THURSDAYS

FEE: \$120

KidzArt is a fun, unique and confidence-building drawing program. Our mission at KidzArt is to provide kids of all ages with the opportunity to increase their skills. KidzArt enhances a child’s experience of art. Kids have a great need to express themselves in many ways — artistically, emotionally and physically. KidzArt impacts each and every area of expression. Children build confidence in a stimulating, non-competitive environment where they learn to focus, to communicate, to realize their artistic potential, and most of all, to have fun! KidzArt uses only the highest quality professional-grade materials and parents and kids alike are amazed at the quality of the work they produce. Students get immediate results as their enthusiasm for art increases.

If you can dream, you can draw!

Kids N Cameras (Grades 3-5)

THURSDAYS

FEE: \$99

Young photographers – Winter is here and it’s time to capture all the fun moments in your life on film! Learn the tricks and techniques of photography. Take your love of pictures to the next level. Stay on the cutting edge with all the latest techniques in photography from a real life photographer. Impress all your friends and even your parents with your picture-taking skills. Make new friends with kids that love taking pictures just as much as you do. In this class, you will be provided with state of the art cameras and a super cool laptop. You will get awesome pictures of all the things that really matter to you and you will make a gallery at the end of the semester! *All materials and tools are included, no need to bring a camera!*

Tennis (Grades K-5)

THURSDAYS

FEE: \$140

Multi-child discount (10% off family total) \$126

TGA brings the game of tennis to your school! Every student has the opportunity to learn a life-long, life changing sport. Our instructors are hand-picked to provide a high level of instruction while maintaining a fun and engaging environment. All equipment is provided. TGA utilizes a United States Tennis Association curriculum.
